Personal Summary

I am an enthusiastic Cyber Security undergraduate with a passion for technology, innovation, and problem-solving. I have a strong foundation in programming, networking, and system security, I am eager to contribute to software development projects that can help improve my skills. My retail experience has contributed to my communication and teamwork skills, while my academic achievements demonstrate my commitment to continuous learning and furthering my technical knowledge.

Experience

BAR AND CATERING TEAM MEMBER | ENTAIN | 06/08/24 - PRESENT

- I currently work as a catering assistant within multiple floors of a stadium. I must always ensure a high standard for both food preparation and presentation.

RETAIL TEAM MEMBER | GREGGS | 11/06/22 - 09/07/23

- At Greggs I was required to serve customers and provide a high quality of customer service. This gave me an opportunity to improve my communication and teamwork skills within a working environment.

Education

CURRENT EDUCATION | BIRMINGHAM CITY UNIVERSITY

- Degree: Cyber Security BSc
- Modules: Networking Technologies, Programming for Network Engineers, Software Security
- Achievements: Cisco CCNA1 Certification, Intro to Cyber, Python Essentials

SIXTH FORM | 21/06/23 | GOSPEL OAK SCHOOL

- Information Technology, Criminology, Psychology
- Grades: Merit, B, C
- Achievements: Duke of York Bronze and Silver, Responsive Web Design Certification

HIGH SCHOOL | 27/07/21 | RSA ACADEMY

- Mathematics, English, Physics, Biology, Chemistry, Computer Science, DT
- Grades: 7, 7, 7, 7, 6, 6, 8

Skills & Abilities

PROGRAMMING LANGUAGES

- I am proficient in Python and currently learning C++ and Java with a strong focus on network related programming.

TIME MANAGEMENT

- I have a proven ability to balance my work and education, maintaining high attendance to school and timely task completion at work.

COMMUNICATION/TEAMWORK

- I worked well within my team at Greggs and always offered to help where and when I could. At university I have collaborated with classmates within assignments which gave us all high grades.

COMPUTER LITERACY

- I have many years of experience using computers and have learned how to use basic programs from excel to more demanding programs such as Visual Studio and the Python IDE.

TECHNICAL TOOLS

- I have experience using tools such as visual studio code, AWS, Oracle Cloud, SQL/MariaDB, Docker and many more.

Certifications/Courses

I have completed a few certifications such as: CCNA1, Intro to Cyber, Responsive Web Design, Python Essentials 1, Computer Hardware Basics.
